

DGP BIOSHIELD - Cat B

The **DGP BIOSHIELD** is a unique patented system designed to meet handling processes from sample extraction to laboratory presentation. The **BIOSHIELD** is a highly protective, cost effective, single use shipping system designed for the transport of multiple samples.

It is suitable for samples transported in fixatives, solid samples or liquid samples such as urine collection. The **BIOSHIELD** ensures that multiple samples arrive at the same time for an easy and efficient sample reception and reduced shipping costs.

The system meets IATA, ADR, and 49 CFR (DOT) requirements.

Components Supplied:

- Outer carton printed in compliance with transport regulations
- BIOSHIELD tray complete with insert
- PATHOSEAL LIQUITITE Leak-proof pouch
- IATA compliant 95kPa 100ml pots
- DGP Cold Cell sheet
- Document pouch
- Spacer
- Security seal label

Product	Product Code	Case Qty	Sample Capacity	Ext. Outer Dims. L x W x H (mm)	Vol. Wt. (Kg)
BIOSHIELD SR20	BSE050	1	20	525 x 345 x 160	4.83
BIOSHIELD SR40	BSE052	1	40	525 x 345 x 160	4.83
BIOSHIELD TR80	BSE019	1	80	495 x 360 x 245	7.28
