

DGP PATHOSEAL 95 95kPa ADR (European Road)

DGP PATHOSEAL95 ranges are 95kPa flexible pressure vessels designed to meet with ADR (European road) regulations.

These ADR 95kPa pressure vessels are leak proof and suitable to protect a wide range of primaries including blood tubes, specimen containers, swabs, blood collection/ transfusion bags and medical devices. The simple closure system enables ease of packing and a unique tamper evident seal ensures integrity of specimens.

The **PATHOSEAL95** pouches are sequentially numbered providing chain of custody and additional security. An external document pouch is provided (with exception to the A6) for accompanying documents.

Product	Product Code	Case Qty	Opening Dims. (mm)	Int. Dims. L x W (mm)
PATHOSEAL95 A3	BZ014	500	294	400 x 305
PATHOSEAL95 A3 c/w 300ml Absorbent	BZ015	500	294	400 x 305
