

DGP PHARMATHERM Insulated Shipper 2-8°C

 DPGGROUP.COM

The **DGP PHARMATHERM 2-8°C** shipping systems are designed to offer optimal thermal protection for pharmaceutical product. The range are pre-qualified to maintain strict internal payload temperature of 2-8°C for up to 96 hours against the rigorous DGP High Performance Summer & Winter test temperature profiles. Regional and national 48-hour solutions are also available. These meticulous profiles have been developed to give users confidence that the quality and efficacy of their payloads will not be compromised during even the most demanding of global cold chain shipping lanes.

The **PHARMATHERM** range are designed with **simple pack-outs and minimal components** to ensure straight forward assembly and thus reduce human error during packing.

The smaller sizes are suitable for shipping low volume payloads, with the mid range ideal for larger national and international shipments.

High Performance Qualified
