

DGP PATHSORB

DGP PATHSORB is a Super Absorbent Polymer (SAP) that ensures excellent absorption capacity to size ratio. Upon absorption during accidental spillage, **DGP PATHSORB** acquires a 'gel like' consistency locking in the spilled material for easy disposal. **DGP PATHSORB** is lint free, reducing risk of contamination within a sterile laboratory environment.

For multiple sample transportation, **DGP PATHSORB** 4 & 6 bay absorbents provide a dual purpose; simultaneously protecting and separating samples.

Ideal for a wide range of containers including blood tubes, vials, swabs, universal pots and petri dishes.

Product	Product Code	Case Qty.	Water Absorbent Capacity (ml)	Saline Absorbent Capacity (ml)	Size L x W (mm)
PATHSORB 50ml	AB001	50	56	50	150 x 75
PATHSORB 100ml	AB006	50	112	100	160 x 140
PATHSORB 200ml	AB009	50	223	200	255 x 175
PATHSORB 300ml	AB002	50	335	300	305 x 220
PATHSORB 600ml	AB007	50	693	600	470 x 295
PATHSORB – 4 Bay Pouch	AB005	50	169	152	245 x 230
PATHSORB – 6 Bay Pouch	AB008	50	238	215	245 x 325
Bubble Wrap Bag	PB003	50	N/A	N/A	310 x 180
Fast Wrap Roll (Adhesive bubble wrap)	PB007	1	N/A	N/A	100 x 300
