

# DGP PATHOSHIELD IATA Cat B

The DGP PATHOSHIELD range are designed to comply with the IATA, ADR & 49 CFR (DOT) transport regulations.

Each PATHOSHIELD system incorporates a DGP PATHOPOUCH, a 95kpa IATA compliant flexible secondary pressure vessel, designed to ship a wide range of primaries including blood tubes, specimen containers, swabs, blood collection/ transfusion bags and medical devices.

The systems are simple to assemble and are available in a range of sizes.

They are designed to ensure efficient use of shipping volume for minimal freight charges and can be flat packed for efficient storage. The outer carton security seal ensures tamper reduction and security confidence.

### Components Supplied:
